# TO THE VOTERS OF BELLE GLADE

I wish to express my sincere appreciation for the splendid cooperation that has been accorded me as your Mayor for the past two years. It was because of this cooperation that much has been accomplished for Belle Glade in a material way. Our city indebtedness has been reduced by more than \$17,000.00 and bills payable are now on a current basis. This \$17,000.00 indebtedness was in addition to the bonded debt. The bonds are also on a current basis and funds are available to retire bonds and interest through March. None of these things could have been accomplished without your cooperation.

On next Tuesday, September 9th, you will again be faced with the problem of selecting one of three men to serve you as Mayor for a term of two years. I am a candidate to succeed myself as your Mayor for a second term. If I have been the kind of Mayor that you believe is best for the continued progress of Belle Glade, I shall greatly appreciate your consideration and support at the polls on election day.

A. E. KIRCHMAN

# Banish after dark

## FILM

LOOK AROUND YOUR HOME TONIGHT. Is the full beauty of your furnishings brought out in their true, rich colors? Or do they appear to be under a dull and lusterless film?

Banish this after-dark film with Light Conditioning. Then you'll enjoy the colors that you've paid for. Your entire home will be more gay and cheerful. And so will your family.

For just a few dollars a room you can enjoy plenty of mellow, glareless "conditioned" light—the kind that helps preserve precious eyesight. Why not see your dealer tomorrow?

### WILLS WAILS

(Continued from page one) an athletic program in which these particular boys will be interested. There will be no senior class at Belle Glade this year and consequently no football team qualified to meet the competition that awaits the Pahokee high school teams.

These things mean a lot to the boys. And in addition to satisfying the boys they all have an opportunity to gain further encouragement to continue their athletic career beneficial at an institution of higher learning after they have completed their high school courses.

And then again, if something phenomenal should happen and Belle Glade developed material this year for a football team during their first year as an accredited high school these boys could be induced to finish their high school training here and would be the nucleus of a really good football team.

### THINGS THEY LEARNED

(Continued from page 1) Obviously this problem becomes more acute when the rate of application of fertilizer has been heavy and the fertilizer has not been thoroughly incorporated with the soil. This condition may be relieved somewhat by wetting the beds thoroughly at intervals, preferably by overhead irrigation. In this way the surface becomes more moist and some of the salts will dissolve and diffuse away from the surface.
